

Enhanced Security with Our Carrier Vetting Feature!

Discover the power of our Carrier Vetting feature, designed to ensure the utmost security and reliability in your logistics operations. Here's what our feature offers:

Carrier Matched Data Tool

Effortlessly flag duplicates in your carrier database with our Carrier Matched Data Tool, ensuring accuracy and consistency in your records.

Instant FMCSA Notifications

Stay informed of any FMCSA changes instantly, enabling you to proactively manage carrier compliance and regulatory updates.

W-9 Data Verification

Rest assured knowing that W-9 data is verified through the IRS, guaranteeing the authenticity and accuracy of carrier information in your system.

Custom Risk Assessments

Receive custom risk assessments to warn of potential risks associated with carriers, allowing you to make informed decisions and mitigate liabilities.

Instant FMCSA Notifications

Easily block, rate, or exclude carriers based on your specific standards and requirements, giving you full control over your carrier relationships.

Detailed Analytics and Reporting

Access detailed carrier analytics, reporting, and trend analyses to gain insights into carrier performance and identify areas for improvement.

Experience the peace of mind that comes with our Carrier Vetting feature.
